

## **19. King of the Road** (Vashti)

### **VERSE**

**A**                      **D**                      **E**                      **A**  
Stood ground and lost my crown, Destination any town  
**A**                      **D**                      **E**  
He broke the cardinal rule, I won't dance for that ole' fool I mean  
**A**                      **D**                      **E**  
I've got my pride to keep, Yeah, it's time for me to take a leap  
**A**                      **D**                      **E**  
I'm a gal with dreams but no means, Queen on the road

### **VERSE**

I once was Queen you know, Shamed and now no place to go  
There's one thing left to do, Gotta start my life anew and so  
I'll find a brand new place and it, May be small but no disgrace,  
I'm a gal with dreams but no means, Queen on the road

**Bb**                                      **Eb**                      **F**                                      **Bb**  
Listen every little girl who hopes to be Queen, All of you children and all of your dreams  
**Bb**                                      **Eb**  
Stand up, be counted and do what is right  
**F**  
And don't forget that you might have to put up a fight, I say

**Bb**                      **Eb**                      **F**  
Good-bye so long, adieu, All along I really knew  
**Bb**                      **Eb**                      **F**  
The palace wasn't mine, And the King he had no spine I say  
**Bb**                      **Eb**                      **F**  
I'm on my way somehow, Take a look at me now  
**Bb**                      **Eb**                      **F**  
I'm a gal with dreams but no means  
**F**                      **Bb**  
Queen on the road  
Queen on the road  
Queen on the road

I'm a gal with dreams but no means  
Queen on the road.
